“ I make it my priority to always listen to my patients. ”

FERNLEY, Nev. (March 20, 2019) – Banner Health is pleased to announce the addition of Cesar Udani, MD, to the Banner Health Clinic in Fernley. With a background in rural medicine, Dr. Udani is excited to provide comprehensive care to people of all ages, particularly seniors and families.

Dr. Udani attended medical school at the Far Eastern University-Dr. Nicanor Reyes Medical Foundation in Manila, Philippines and performed his residency at Michigan State University-McLaren Medical Center in Flint, Mich. He is board-certified in family practice.

With 17 years' experience, Dr. Udani assesses and treats a diverse range of medical issues, including women's health issues, skin disease, heart disease, kidney disease and more. He is looking forward to working in an outpatient setting and seeks to build relationships with his patients over time.

“I make it my priority to always listen to my patients,” Dr. Udani said. “When my patients describe their medical concerns to me, I am able to assess their needs and determine a treatment plan that will work for them as an individual. Everyone has their own feelings and emotions, and that plays a big role in the care that I provide.”

In his free time, Dr. Udani enjoys spending time outdoors, gardening and exercising. He enjoys being a part of the Fernley community and getting to know his patients.

Dr. Udani practices at the Banner Health Center, 1260 Nevada Pacific Blvd. Call (775) 575-7171 to schedule an appointment.
